EUROPEAN Freshcano FRESH CANNED PEACHES

SFH
FOOD & HOTEL
SEOUL

21-24 May 2019

Visit us!
at Hall 4 / Booth 4A501

**European
Quality
Preserved!**

Spanning the entire process, from the cultivation of the fruit until its canning, European canned peaches adhere to rules for proper farming practices, GLOBAL GAP, and observe the internationally recognized standards BRC, IFS, HACCP & ISO, as such have been established and adopted by the European Union. This ensures the proper cultivation, processing and standardization of canned peaches across all stages, offering high quality and nutritional value products to consumers.

비즈니스 프로그램

국내 유통 바이어 상담회

- 주최 : KOTRA
- 주관 : THE BUYER(식품유통 전문지)
- 목적 : 전시회 참가업체의 내수 판로 확대를 위해 유통 바이어와 1:1 상담회 개최
- 기간 : 2019. 5. 21(화)~23(목) / 10:00~17:00
- 장소 : KINTEX 제1전시장 3홀 후미 바이어 상담장

해외 바이어 수출 상담회

■ 제7회 글로벌 유통기업 초청 입점 상담회

- 목적 : 글로벌 유통기업 매장 입점 및 제품 공급 기회 제공
- 일시 : 2019. 5. 21(화) / 10:00~16:00
- 장소 : KINTEX 제2전시장 6B홀
- 규모 : 글로벌 바이어 30개사 내외

■ 제7회 교포 바이어 초청 수출 상담회

- 목적 : 수출 정보가 부족하고, 바이어 물색이 어려운 영세기업에게 해외 시장 진출 기회 제공
- 일시 : 2019. 5. 21(화) / 10:00~16:00
- 장소 : KINTEX 제2전시장 6B홀
- 규모 : 교포 바이어 45개사 내외

■ Global Food Plaza 2019

- 목적 : 수출 중소기업의 해외 거래선 발굴 및 수출 확대
 - 일시 : 2019. 5. 22(수) / 10:00~16:00
 - 장소 : KINTEX 제2전시장 6B~C홀
 - 규모 : 유력 바이어 150개사 내외
- * 유력 바이어 : 연매출 1천만불 내외의 실적이 있는 해외 바이어

■ FOOD TECH 바이어 초청 수출 상담회

- 목적 : 식품기기분야(식품, 포장, 호텔레스토랑기기)의 장기적인 육성을 위해 별도 식품기기 바이어 유치 및 국내업체 수출기반 마련
- 일시 : 2019. 5. 21(화) / 10:00~16:00
- 장소 : KINTEX 제1전시장 5홀, 제2전시장 7~8홀
- 규모 : 식품기기 취급 바이어 50개사 내외

부대행사
및
이벤트

Biz-Consulting(해외 참가사 비즈니스 상담회)

- 기간 : 2019. 5. 21(화)~24(금)
- 장소 : KINTEX 제1전시장 4홀 후미
- 내용 : 해외 참가업체의 제품 중에서, 국내 바이어가 관심이 있고 매칭이 가능한 제품을 선정해 국내 바이어와 비즈니스 맞춤 상담회 진행

SEOUL FOOD AWARDS 2019

- 기간 : 2019. 5. 21(화) ~24(금)
- 장소 : KINTEX 제1전시장 3홀 로비 어워즈 홍보관
- 내용 : 식품분야별 자문단을 통한 국내 참가업체 우수 제품 선정 및 현장 전시, 국내 식품 트렌드 공유

Culinary Challenge 2019

- 기간 : 2019. 5. 21(화) ~ 24(금)
- 장소 : KINTEX 제1전시장 국제관 3~4홀 內 경연장
- 대상 : 호텔 및 레스토랑 셰프, 요리학교, 아카데미 학생
- 주최 : UBM, KOTRA
- 내용 : 14개의 클래스로 이루어진 요리 경연 대회

Wine Tasting Pavilion 2019

- 기간 : 2019. 5. 21(화) ~ 24(금)
- 장소 : KINTEX 제1전시장 국제관 3홀
- 주최 : KOTRA, UBM
- 주관 : WINE REVIEW
- 후원 : (사)한국와인협회
- 내용 : 미수입 와인 전시회 및 시음 진행

서울푸드 잡페어(Seoul Food Job Fair)

- 일시 : 2019. 5. 22(수) 10:00~17:00
- 장소 : KINTEX 제2전시장 8B홀
- 참여기업 : 식품산업 및 식품 관련 직종 구인기업
- 참여대상 : 식품 관련 산업 전직종 청년 구직 희망자
- 행사구성 : 취업상담관, 컨설팅관, 직업체험관 등

국제공정무역기구 컨설팅

- 기간 : 2019. 5. 21(화) ~ 24(금)
- 장소 : KINTEX 제1전시장 1~2홀 內
- 대상 : 국내 바이어 및 국내 참가업체
- 주최 : 국제공정무역기구 한국사무소
- 내용 : 국제공정무역기구 인증을 받은 상품 소개 및 인증 컨설팅

사 회 적 공헌활동 (CSR)

세이브 더 칠드런 (Save the Children)

- 주최 : 세이브 더 칠드런
- 기간 : 2019. 5. 21(화) ~ 24(금)
- 장소 : KINTEX 제1전시장 2홀
- 내용 : 신생아 살리기 모자 뜨기 캠페인 진행

전국푸드뱅크

- 주최 : 전국푸드뱅크
- 기간 : 2019. 5. 21(화) ~ 24(금)
- 장소 : KINTEX 제1전시장 2홀
- 내용 : 식품을 통한 기부사업 안내

전시품목	별미식품은 할머니의 주름진 손끝에서 시작되었습니다. 정직한 손맛은 사람들의 입맛을 사로잡았고, 이내 찾는 사람이 많아졌습니다. 그렇게 별미식품은 1965년 서울 신당동의 한 작은 집에서 문을 열었습니다. 1970~80년대 별미식품의 국화표고추장, 조선맛된장은 품귀현상을 빚을 만큼 전국으로 팔려나갔습니다. 2015년에는 3대 대표가 된 손자가 창안한 제품이 중소기업진흥공단 청년창업사관학교의 우수사업으로 선정돼 전통 장을 기반으로 한 다양한 소스가 탄생했습니다. 별미식품은 이제 3대가 잇는 가업으로 전통을 쌓아갑니다.

전시품목 먹는 샘물(생수)
- 동해약천골지장수란? 예로부터 황토를 거러앉혀 얻은 물을 지장수(地漿水)라고 하는데, 동의보감에서는 여러가지 증독을 풀어내는 해독제로 처방합니다. 국내 최초로 5억 7천만년 전 지하 145m에 천연적으로 형성된 황토암반층에서 끌어올려 황토의 효능과 동해의 기운을 담은 천연수입니다.
- 서울대학교 아토피 임상시험 결과보고서「지장수 음용 후 12주간의 경과를 관찰한 결과 지장수 음용은 거의 부작용이 없이 환자들이 안전하게 효과적으로 아토피 피부염의 보조 치료제로 응용할 수 있는 음료수로 생각되었다.」

전시품목 정수기(정수필터) : 수도물을 정수하여 커피제조 및 음식조리에 정수물을 공급 할 수 있다.
- 대용량정수장비로 분당 20L의 정수물을 공급가능. 정수대기 시간 없음.
- 물의 하루 사용량이 많은 커피전문점, 외식업소, 음식가공 공장에서 정수 가능한 나라 수입이나 물의 대량공급 여부도 중요하다. 애니워터는 타사 제품 과 비교 했을 때 1리터 물병에 정수물을 받는 시간을 약80%이상 단축시킨다.
- 유명외식업소 및 프랜차이즈, 호텔에서 많이 사용하고 있는 제품이다.

 전시품목 Taisei Lamick is highly regarded in the liquid packaging field, in which liquids and pastes such as various types of condiments and cosmetics are filled swiftly, precisely and without waste according to the required shapes, sizes and functions. The company's main merit is its business model which is the only one in Japan that can offer the development and manufacture of "liquid filling films" matching each of the customer's products, together with "liquid fillers" which utilize the characteristics of these films to the maximum. Taisei Lamick also provides support using optimum solutions for customers' needs relating to "operations" in order to assist customers' businesses.

전시품목 STERI-ACE 고온고압 레토르트 멸균기 에어시스템으로 정도가 높은 멸균을 행하며, 2단 멸균법으로 레토르트 특유의 냄새가 적으며, 고품질의 식품을 만들 수 있습니다. 또한 제품의 변색이 적고, 포장재(파우치, PP트레이 등)를 손상시키지 않습니다. 사각챔버로 공간 효율이 뛰어나며 기존 열수식 대비 에너지가 절약되어 제품생산 원가절감에 효과적 입니다. 고온고압 레토르트 멸균 뿐 만 아니라, 저온살균(세미 레토르트)도 가능합니다. 다양한 옵션의 선택으로 유리병 제품의 살균이 가능하며, 진공조리 또한 가능합니다.

전시품목	수돗물에 미량의 소금만을 첨가해 전기분해를 통해 얻어낸 활성화된 전해 차아염소산나트륨수를 생성하는 장치로, 식품 위생안전 및 식품산업 전반에 획기적인 위생관리 솔루션을 제공함. 기존의 독한 약품 사용 없이 소금과 물만으로 강력한 살균소독수를 생성하며 인체 및 환경에 안전함은 물론, 매우 경제적인. 피부에 안전하고 사용시 거부감이 없으며, 염소 잔류가 거의 없음(약품의 1/100배). 약품 사용시 발생하는 염소가스로 인한 어지럼증, 메스꺼움 등의 인체 유해성 제거, 살균작용 후 분해되는 속도가 빨라 배수 시 환경오염 문제없음.

전시품목 분쇄기(crusher) 에어제트밀 1. 분쇄는 주로 공기중에서의 입자간의 충돌에 의해 이루어지기 때문에, 기계의 마모에 의한 제품으로의 혼입이 상당히 적다. 2. 분쇄기 내부 구조를 가능한 심플하게 제작하였으므로, 청소가 매우 간단하다. 3. 입자간의 충돌에 의해 분쇄하는 원리를 채용하여 기계에서의 컷팅, 마쇄, 충격식 분쇄기등과 비교하여 매우 미립자를 만들어 낼 수 있다. 4. 기계적인 발열이 없고, 압축된 공기가 분쇄기 내부에서 대기압까지 팽창을 하기 때문에 입자간의 충돌열을 뺀 효과로, 분쇄기가 발열이 없다

 E-mail copybarhyo@gmail.com
 Exhibits Boksoondoga Rice wine is an original home-brewed Rice wine made from a traditional family recipe. We brew our Rice wine exclusively out of the newly harvested Korean rice of the farming year and ferment in the traditional Korean pottery. Natural carbonation produced out of the process of fermenting traditional Korean yeast provides a refreshing sensation (like champagne) along with rich and mild tastes. Unlike other Rice wine, our Rice wine mixes well simply by opening, even without shaking, the bottle. Our Rice wine is 'slow food' which is slowly fermented at low temperature without adding any preservatives or artificial bacillus. As a result, it is healthier, containing nutrients and minimizing hangover. We offer only limited quantities because we hand-brew all of our Rice wine and focus on maintaining the highest quality possible.

 Exhibits Since being established in 2004, BTC has become a leading company in nutraceutical ingredients market in Korea. BTC has specialized in the development and supply of natural ingredients for the food industry. The natural ingredients obtained from plants and fruits are developed by the using the most advanced technologies. The efficacy and safety of the ingredients have been proved by various experiments and clinical tests. The whole productive process from raw materials to finished products stage is strictly controlled to guarantee the highest manufacturing standards. In order to develop continuous new ingredients and production technologies, our research team has collaborated with prestigious universities and external research institutes. All BTC products go through an initial process to develop the most optimized processing condition that maximized active compounds in natural substance and its efficacy. The active compounds in products can be absorbed differently in the body depending on personal characteristics. To overcome this and increase bioconversions of active compounds and microbial fermentation, The half-finished products are analyzed by HPLC and HPLC in order to establish, track, and manage active compounds and index compounds. In addition, BTC's unique formulation technology enables products to remain stable. So BTC can produce good quality products in strict quality control. All BTC products are manufactured in a GMP certified facility.

E-mail byulmi7611@naver.com
Exhibits Byulmi Company started from the wrinkled finger tips of grandmother. In those days when rice was a precious food, grandmother made hot pepper paste with rice, with her obstinacy that the best raw materials must be used in food. Honest food captured the taste buds of the people, increasing number of people looked for the food. Hence, Byulmi Company opened the door at a small house in Shindang-dong, Seoul, in 1965. In 1970-1980, Gukhwapyo-hot pepper paste, Chosummat-bean paste was distributed throughout the country and it led to scarcity of the product from time to time. In 1983, new factory was constructed in Gwangju, Gyeonggi-do and fully equipped with the latest production facilities. In 2015, the new product developed by the 3rd President, grandson of the founder, was appointed as an excellent product by the Youth Startup Academy in the Small & Medium Business Corporation and it has become a global sauce based on the traditional sauce of Korea. Byulmi Company is now carrying on a three-generation family business. Currently, we start again to make inroads into the global market. In order that Korean flavor may be recognized all over the world, grandmother's honesty and father's endurance may be entered into the global market, Byulmi Company will strive continuously for a new challenge as well as build up a new tradition.

Exhibits	'SAVING NEWBORN LIVES' Save the Children Korea has been running a 'Saving Newborn Lives' campaign since 2007. 'Saving Newborn Lives' campaign aims to prevent newborn and maternal deaths by addressing the major causes of the deaths, increasing public awareness of the issue, and raising funds which are vital to providing life-saving programs especially to the most vulnerable babies and mothers in the world. Also, people can participate in the campaign by donating and knitting a cap for newborn babies.

Korean Traditional Food Snack/Cookie/Dessert/Gourmet/biscuit Yuga: Yuga is known for the best among Korean Traditional Biscuits. It is made by leavened glutinous rice, and this technique shows the wisdom of Korean ancestors. The recipe requires lots of sincerity and patient for a good taste. There are different kinds Yuga based on the size of oil-and-honey paper and the kind of powdered bean used. Yuga is one of the important foods in Korean traditional customs or holidays such as feasts, ancestral rites, Chuseok (Korean Moon Festival), and Korean New Year's Day. Yakgwa: Yakgwa is a type of Korean Traditional Biscuit made by kneading different kinds of powdered grains with honey, oil, and Korean wine. After kneading, shape to an appropriate size, and fry in boiling oil. Then, take it out and cover the surface with grain syrup. This is MoYakgwa (one type of Yakgwa). Its characteristic is that it maintains its genuine texture, and since grain syrup soaks through, the flavor is very rich. Its another characteristic is that its size is a mouthful. Kangojeong: Kangojeong is a confection made by mixing toasted seeds, nuts, beans, or popped grains with rice syrup and cut into desired shapes. Common ingredients are pine nuts, walnuts, peanuts, sesame or perilla seeds, and popped rice.

Microwave Vacuum Drying Food Company The product of UNIONTECH was dried by vacuum drying method in our own line. We use 100% natural fruits and vegetables. This is a top-level patent drying technology that can sterilize and dehydrate fresh agricultural products quickly in 1-4 hours, transmitting microwave vacuum radiant energy without freezing or heating. Most of the natural vitamins, minerals and other nutrients in fruits and vegetables are preserved. It preserves more nutrients and keep superior taste and rich flavor than other hot-air and freeze-dried products. Micro Vacuum Dried fruit and vegetable - notable product attributes - * 100% all natural ingredients * No artificial color or preservatives * Rich, natural colors and tastes and flavor * High nutrient and polyphenolic values * non-GMO * gluten and allergen free * Rich in fiber and no added sugars * Low fat and low in sodium * Minimum two-year shelf life * Effect of sterilizing microorganism while drying * HACCP certified * Application * HMR/Home Meal Replacement/health: cereals, oatmeal, trail mixes * Dairy: cheese, yogurt, yogurt toppings, gelato, ice cream * Confectionery: wide variety of health bars, candy bars, truffles, bark chocolate * Baked goods: biscotti biscuit, cookies * High-quality Dried fruit and vegetable for extraction : Natural beverage, health food

Exhibits

Since being established in 2006, BTC has become a leading company in nutraceutical ingredients market in Korea. BTC has specialized in the development and supply of natural ingredients for the food industry. The natural ingredients obtained from plants and fruits are developed by the using the most advanced technologies. The efficacy and safety of the ingredients have been proved by various experiments and clinical tests. The whole productive process from raw materials to finished products stage is strictly controlled to guarantee the highest manufacturing standards. In order to develop continuous new ingredients and production technologies, our research team has collaborated with prestigious universities and external research institutes. All BTC products go through an initial process to develop the most optimized processing condition that maximized active compounds in natural substance and its efficacy. The active compounds in products can be absorbed differently in the body depending on personal characteristics. To overcome this and increase bioconversions of active compounds and microbial fermentation. The half-finished products are analyzed by Prep LC and HPLC in order to establish, track, and manage active compounds and index compounds. In addition, BTC's unique formulation technology enables products to remain stable. So BTC can produce good quality products in strict quality control. All BTC products are manufactured in a GMP certified facility.

Exhibits Company that developed food additives by using complex mycelia. What stands out Giunchan from the rivals is that complex culture technique¹ used to cultivate medicinal mushrooms on the other grain fields and it can maximize nutritional contents. Medicinal effect is encouraging people to experiment the substance. Composite mycelial powder can be used as an additive to various food processing such as meat processed food, confectionery and baking, because it can upgrade the nutrition without harming taste and flavor of raw materials.

Exhibits 1.Target Customer A:Vegetarians who usually consume vegetable protein B.Thin people who want to increase their weight steadily C.People who want to build a healthy body by building muscles D.People who want to synergy effect between enzyme in grain and vegetable protein 2.Need for the Product A:When nutrients are not digested and absorbed effectively, this may cause low weight and muscle reduction that lead to diverse health issues. B.To overcome these, eating a lot recklessly is not the solution. Ifstead, it is necessary to ensure that the consumed nutrients are absorbed effectively into the body. C.Hyssonjeok's high intensity fermented enzyme in grain facilitates effective nutrient absorption while Harukongnyeok's fermented protein in beans that are absorbed in fast help to increase muscles, building healthy weight. 3.Product's Special Characteristics: A:Fermented enzyme in grain helps to absorb the consumed food. Thus, it is possible to absorb sufficient amount of nutrients without over-eating. B:This is a product that is most natural that does not control the substances artificially and that does not include any chemical additive. C:When grain's diverse nutrients are consumed steadily, this helps to improve health and to maintain healthy weight. D:This is a health food that fundamentally transforms the body/make-up to soothe the insides and to facilitate nutrient absorption.

 Exhibits - DongHae YakCheonGol JiJangSoo(Natural Mineral Water) - From ancient times, the water with Hwangto (red clay) settlement has been called JiJangSoo, which was prescribed as an antidote for poisoning of various materials. DongHae YakCheonGol JiJangSoo is the natural water containing the effect of Hwangto and the energy of the East Sea pulled from the Hwangto bedrock layer naturally formed at 145m underground 570 million years ago. - Seoul National University College of Medicine Clinical Test -
 *According to 12-week observation on the progress of patients that drank JiJangSoo, it was verified that JiJangSoo can be safely taken without side effects as an effective auxiliary medicine for atopy skin disease. Also, this study holds greater significance in that double blind research was conducted to compare the effects of JiJangSoo and regular water according to different points in time. ㄱ

PhytoSalt is the world's first 100% plant-based salt. Also, PhytoSalt is the world's only "naturally low-sodium salt" extracted from Salicornia plant, that overcomes the deadly condition of "Salt Stress" which results from excessive salt intake. Animal studies have shown that PhytoSalt is effective on high blood pressure and the related article has been published in the international journal of molecular science. Also, PhytoSalt is effective on reducing 15% of salt intake because PhytoSalt and a microplastics-free salt because the plant cell membrane of Salicornia filters out the microplastics contained in seawater. PhytoMeal is new super-food and low calorie flour substitute that is made by desalinating Salicornia. PhytoMeal can be mixed with wheat flour, corn flour, rice flour, etc. PhytoMeal is a tasty ingredient that is good for many foods such as breads, cakes, cereals, cookies & chips, pasta, hamburger & pizza buns, soups, etc. In addition, animal studies have shown that PhytoMeal is effective on obesity and arteriosclerosis. PHYTO has recently developed desalted Salicornia-based tea, PhytoTea that is new tea material that is great in scent and taste. PhytoTea is made by roasting PhytoMeal using our patented technology. Furthermore, we have developed MemoryTea that is tasty Salicornia RTD(Ready-To-Drink) Tea containing Salicornia-derived memory enhancer compound, Acanthoside B. Our MemoryTea is organic, 0 calories, caffeine-free, and unsweetened tea.

Exhibits Vita Drops is a functional beverage, awarded in the Innovation Food Category of the 2018 Seoul International Food Show. This is a first of its kind liquid water enhancer in Korea, fortified with vitamins to give you an extra nutrient. Vita Drops is dedicated to provide consumers with qualified, innovative, science-based product. All the products released are developed by the well-experienced members and produced under severe sanitation act in Korea. Vita Drops has seven delicious flavours with different functional effects. Even though fruit is generally high in carbs, Vita Drops is low-calorie and low-carb product without sugar. Vita Drops packed with innovative disposable sachets, is convenient for adding to a narrow-necked water bottle. You do not need to calculate how many drops or more you add for every single time, only need 500 milliliter water. Currently, Vita Drops has been launched in various countries and hope to be one of Asia's leading water enhancers. you'll discover much more in-depth information about what you should drink on a diet. Simply find your desired beverage for more specifics with Vita Drops.

 Exhibits Ropack system -without replacement of the robot hands, operations such as case forming, incasing and palletizing are possible. Realization of the most optimized packaging system for the small quantity batch production. Random caseformer -without additional manual setting, automatically case forming and taping of the boxes for various size are possible. Case forming for boxes of various sizes from 1 to 7 is possible at the same time. Pick & place -High precision repetitive tasks allow fast and accurate operation. With a 3-4kg load, various materials can be moved at high speed. It is possible to establish a sanitary production line by using oil for food appliances. AGV system -The automated guided vehicle is an all-in-one process that covers all parts of the production process, such as material warehouse, production line, production process, inspection, packaging. It is the best solution that can be applied to. SOFT GRIPPER -The new type of flexible gripper allows you to simulate human hand motion and manipulate different sizes, shapes and applications. This product is a soft pneumatic grinder made of flexible material. Distinguished from the existing fixed gripper, the product can be grasped without setting, depending on the size and shape of the product.

Exhibits	TPG, founded in 1984, was the first company in the field in South Korea. Through products like oxygen absorber, desiccant, gas absorber and more, TPG is now an unparalleled company with the largest market share in Korea. TPG pushed on to advance into new markets like the U.S., South America, Oceania, Southeast Asia and exhibited its presence in over 20 countries around the globe. To this day, TPG is growing as a global company. With the slogan, "Total Packaging-system Guardian," TPG leads a safe packaging culture through freshness preservers. Through global networks such as U.S. and Vietnam branches, TPG is a global freshness presentation company that stands together with costumers from all over the globe.

 Exhibits Taisei Lamick is highly regarded in the liquid packaging field, in which liquids and pastes such as various types of condiments and cosmetics are filled swiftly, precisely and without waste according to the required shapes, sizes and functions. The company's main merit is its business model which is the only one in Japan that can offer the development and manufacture of "liquid filling films" matching each of the customer's products, together with "liquid fillers" which utilize the characteristics of these films to the maximum. Taisei Lamick also provides support using optimum solutions for customers' needs relating to "operations" in order to assist customers' businesses.

 Exhibits Optical Sorting Machine Our optical sorting systems are a sophisticated combination of advanced cameras
 and lasers, with multidimensional image processing for superior quality, size and length sorting.
 High-resolution cameras detect discoloration and size and shape deviations, while laser sensors detect
 foreign objects and 'sugar ends' extremely accurately. Special lasers sort by biological characteristics,
 such as the presence of solanine, acrylamides and water. Our sorting systems easily adapt to the required
 quality specifications and you can choose between two-way or three-way sorting. Using a unique, 2400mm
 maximum scan width, they not only offer greater capacity than other systems, the extra width ensures that
 the products to be sorted are more distributed across the inspection zone, allowing defective ones to be
 removed more accurately and reducing the risk of false rejections.

Exhibits NaOClean is a disinfectant generator, creating the activated sodium hypochlorite, which is powerful
disinfecting ingredient, by electrolyzing the salt and water. NaOClean has received great attention from
the food processing workers, and it is mainly used to ensure the safety of the foods, such as storage of food
materials, the sterilizing process in the food industries. It provides the innovative solution for hygiene
management. Without affecting the pH level, just electric current passes through tap water mixed with a
small amount of salt in an undivided electrolytic cell. Also chlorine residual is almost none. (Less than 1/100
times than Chemicals.) This activated solution does not make any environmental pollution as well as safe
for human body because of its quick natural dissolution after working.

Exhibits	Crusher Air Jet Mill 1. Since grinding is mainly caused by collisions between particles in the air, there is a considerable amount of input into the product due to wear of the machine. 2. Because the internal structure of the shredder is as simple as possible, cleaning is very simple. 3. By employing the principle of crushing by collisions between executives, it is possible to produce very fine particles compared to cutting, grinding, and shock-type grinding machines in machines. 4. Because there is no mechanical heating and compressed air expands from inside the grinder to the atmospheric pressure, the effect of taking away the collision heat between the particles is that the pulverizer has no heat, which can crush the weakly heat-resistant powder.

Exhibits	K&S COMPANY was founded in 2005. We focused High Shear mixing, dissolving, emulsifying. We want to solve the customer's problem. We can offer Key&Solution for high shear mixing. K&S COMPANY compete against well-known mixer. For example, Germany or Japan maker. We always try to develop our technology with many testing. POLIMIX can help your product environment more cleaner and safer also it can reduce production time. PASSON is high shear mixer for high viscosity. HOMO MIXER is used for many kinds of applications.

 Exhibits STERI-ACE Air-steam sterilizer with high temperature and high pressure High temperature and high pressure sterilizer STERI-ACE uses a patented Air Steam. It has an effective rectangular structure so it needs less space to set up and saves energy. It has a 2-step sterilizing system that helps to cook more delicious and available for LLL(Long-life) chilled food. Also, it makes less retort smell and does not damage the taste, color, texture and pouch materials. The installation is simple, so it can even be installed upstairs. The operation is simple, and automatic. Maintenance is easy. Pasteurization at a low temperature is also optimizing for air contained packing food. There are options to choose to sterilize glass jar or vacuum cooking.

Exhibits PAMPAFOODS has the necessary expertise and is responsible today for the development and integration between Brazilian suppliers and buyers of unquestioned reputation, both nationally and internationally. We provide frozen and chilled products: beef cuts and offals, chicken cuts and offals, pork cuts and offals, lamb cuts & french fries. Our product portfolio also includes Brazilian fruits, such as mangos and grapes, along with great quality honey produced by Brazilian companies. We provide the opportunity for small and medium sized producers in Brazil, with little or no experience in exports to have a shot in exporting their products and giving them access to new markets, attaining sales all over the world. We also offer all the support and assistance necessary for product quality control, documents and logistics in each individual operation.

Exhibits PharmaNectar's history started in 1980 with the creation of Apiarino Nectar (Nectar Bee Farms). Since then, we have spent nearly three decades pursuing the best products bees can offer. In 1990, with the foundation of Nectar Farmaceutica, we went international and expanded our scope to include biotechnology, phytotherapy and compounding pharmacy. With this focus, we began exporting and in 2001 we were rewarded for our tradition of good customer service and quality by earning the ISO 9001 certificate from four international accreditation institutions. Today PharmaNectar is a respected brand distinguished by its quality and commitment to excellence. We export to the demanding Japanese market and other Asian countries, as well as to the U.S., Europe and Africa. Despite our growth, we have kept our focus on individual pharmaceutical assistance and the research & development of innovative products from natural molecules that meet the dynamic medical needs of patients for nutrition, prevention and treatment. Promotion of health, prevention and cure of diseases and the improvement of the quality of life of our clients are our main commitments. Our constant goal is to honor our client's preferences.

Exhibits Prairie Tide Diversified (PTD) is a Canadian SME company based in Saskatoon, Saskatchewan. PTD is focused on producing clean label, Non-GMO, gluten-free food, ingredients, and natural products, primarily developed from flax seed. PTD has several products ready for market, including: XanFlax--a non-fermented, clean label, gluten free egg-replacement and substitute for xanthan gum (thickening agent), SesaFlax--a roasted flax product that tastes similar to sesame seed, but has the nutritional benefits of flax seed (high omega-3 content, high fiber, anti-inflammatory properties, and blood cholesterol-level lowering.) Morning Flax--a traditional tasting roasted flax product that offers the nutritional benefits of flax seed. MediFlax--a flax-based soluble fibre product used as a natural laxative product. Lignan 50-- a single pill once-a-day dosage of Lignan. The supplement contains 50 percent lignan, and is a plant-based source of estrogen useful for symptoms of PMS, menopause, and to help in the prevention of prostate cancer. Orbitaldes -- specialized bioactive cyclic peptides for health and cosmetic markets that have anti-inflammatory and anti-aging properties and can be useful to stabilize mixtures and control the release of aromatic oils and flavours.

 Exhibits Canada is one of the world's leading suppliers of high-quality geoducks. Individually harvested by divers and managed with the greatest pride and care, Geoduck from Canada is prized in countries around the world. The Underwater Harvesters Association is a non-profit association that represents 55 license holders, 550 quota block holders, exporters, crews and families; together we manage and market the wild geoduck fishery in Canada. There are currently 34 First Nations communities participating in the fishery through joint holdings of five licenses, which represents 10% of the overall geoduck fishing quota. The Underwater Harvesters Association has developed the geoduck fishery into a highly specialized, sustainable industry that offers a premium live product to international markets.

Exhibits	Pinyuan (Suizhou) Modern Agriculture Development Co., Ltd. is a provincial-level key leading enterprise specialized in forestry industrialization of modern agricultural technology research and development, edible fungi cultivation, deep processing of agricultural products and export trade, with a registered capital of 50 million yuan. Spicy Kee of Mushroom is a brand of shiitake condiment series created by Pinyuan. Its main raw material (Champignon) is selected from the Chinese mushroom town of Hubei Suizhou, through the national ecological origin protection certification of the Chu Pinyuan brand dried mushrooms, and after strict screening, each is independently developed, carefully modulated. Using a special process, and then using the non-polluting canning and capping technology, the delicate and easy-to-carry glass jar retains the unique aroma of the mushroom, and finally is sterilized by high temperature to make the product safe and healthy, and maintain the unique characteristics of the mushroom. Flavored taste. On December 27, 2017, Spicy Kee mushroom mushroom sauce passed the export qualification certification and became the first mushroom sauce export enterprise in Hubei Province.

 Exhibits DANISH CHICKEN FROM DANPO Danpo A/S is a Danish company within the Scandi Standard group. Scandi Standard is the largest producer of chicken and chicken based food in Scandinavia with leading positions in Norway, Sweden, Finland, Ireland and Denmark. Danpo A/S is offering chilled, frozen and processed chicken worldwide under the brand names Danpo and Your Chicken and the premium brand The Danish Family Farms. We are an abattoir company and also part of the Danish agricultural sector. At our plants in Aars and Farre, we work each day to deliver chicken products for tasty and healthy meals in Denmark and for our export markets. At Danpo, it is our dream for everyone to enjoy better chicken a little more often - preferably once more every week. FOR US FOOD SAFETY IS THE KEY As a Danish abattoir we of course need to live up to the requirements from Danish and European authorities for food safety, requirements from third-party auditors (certifications) and customer demand. Overall, the quality system handles three areas within products and processes: food safety, product quality, and good production practise (GMP). Food safety is to make sure that chickens are completely safe to eat.

Exhibits	At Haelssen & Lyon, one of Europe's leading tea companies, the world of tea literally comes together under one roof. The highest-quality teas and tea specialties from all of the world's best-known tea regions and superior grades of herb and fruit infusions are traded, refined, blended, flavoured and packed in our own production facilities in Hamburg, Germany. We offer our business customers all the myriad facets of first-class teas from a single source: from premium mono-teas and tea specialties to the finest, flavoured herb or fruit infusions and tea extracts, from instant powder mixes in convenient formats to bottles of ready-to-drink teas, from bulk teas to finished packed goods for sale to end consumers. Our repertoire also includes instant products, decaffeinated teas and freshly-brewed ice teas for the refrigerated section. We source our raw materials in more than 130 countries around the world, based on numerous long-standing and trusting partnerships with the world's best tea gardens and suppliers. This gives our experienced buyers secure access to premium qualities, which we in turn can continuously offer to our customers.

Exhibits	Freshcano is the distinctive title of a European program for the promotion of European Canned Peaches. AL.M.M.E is an agricultural corporate collaboration of three Producer Organizations, namely A.C. Neos Aliakmon, Messi Coop and A.C. Meliki that proposed this program. These three Producer Organizations have more than 2,200 growers as members and their cultivations cover an area of 3,200 hectares in the central Macedonia, Greece. During the growing and cultivation of the raw materials (peaches), there is a full implementation of GLOBAL GAP and AGRO 2.1 & AGRO 2.2 which is also known as Integrated Crop Management System (I.C.M). AL.M.M.E, is considered one of the biggest processing unit in the world for canned peaches, with a capacity of 34,000tn of peaches and a total production of 1,500,000 Cartons in basis of 24 x 1 kg cartons of canned peaches. European Canned Peaches that are produced in Greece, distinguish for their quality, safety and taste, since they adhere to rules for proper farming practices, GLOBAL GAP, and observe the internationally recognized standards BRC, IFS, HACCP & ISO, as such have been established and adopted by the European Union.

Exhibits	ABP Food Group is one of Europe's leading agri-business companies employing more than 11,000 across 51 processing sites in nine countries. The company was founded over 60 years ago and operates across four divisions: Beef, Renewables, Pet Foods and Proteins. ABP is recognised globally for supplying high quality beef for the retail, food service and manufacturing sectors. More than 200 Michelin Star restaurants serve ABP Beef on their menu. All beef products supplied by ABP are DNA traceable to their farm of origin. In the UK, the company is a significant contributor to the rural economy, operating in 15 locations, working with over 12,000 British farmers and employing over 5,000. Sustainability is a key driver of ABP's business and its sustainability strategy which is based on the United Nations Global Sustainable Goals, includes a number of industry-leading programmes across the supply chain. Last year, ABP became the first company globally to receive quadruple certification from The Carbon Trust in recognition for its actions in reducing energy use, CO2 emissions, water use and waste output, in addition to its collaborative work on the environment within the supply chain.

Exhibits Bord Bia, the Irish Food Board in partnership with the European Commission have launched a three-year, €3.95million or ₩5,058 million EU co-funded 'European Pork & Beef promotion campaign' across a number of key Asia markets to include South Korea. The European Union is famous for some of the highest quality food products and EU food legislation is recognised for the highest standards. In Ireland we have our own rigorous quality standards and a key focus on sustainability through our world first origin green sustainability programme. European food products are produced in a clean, green environment. Ireland is the largest exporter of beef in northern Europe, we have strong capabilities in pig meat production and we export our meat to 76 markets worldwide across Europe and Asia. We are valued for our high quality food and our sustainability practices. European and indeed Irish pork is renowned for its lean meat and Irish beef is naturally tasty as it is grass fed on modern family farms. We look forward to welcoming you to our 'Enjoy it's from Europe' stand 3E601 & 3F601 in Hall 3 where you will have an opportunity to meet with some Irish Pork

Exhibits	The farmer cheese 'Fiore di Sant'anna' born on the February 2018 in a little and lovely calabrian town in the South of Italy, called Sellia Marina located on the beautiful east coast of the Ionian Sea. The idea came to a local entrepreneur that strongly wished to realize the dream to continue the experience of the ancient master cheesemakers, unique experts and connoisseurs of the local traditions. The characteristics of the territory rich in aromas and the particularly favorable climatic conditions, make the grazing of the hills facing the sea a suitable environment for the production of sheep's milk particularly for the making of the 'pecorino' (original calabrian sheep cheese), speciality made by Fiore di Sant'Anna in many flavours. All this combined with the great experience of the master cheesemakers has contributed to the birth of this new dairy farm that can boast the experience of two generations

Exhibits	Pasta Producers... since the beginning of time! Please Welcome THE Authentic, Italian, Artisan, Traditional, PGI Gragnano's Pasta! We have been producing Pasta in Gragnano for over 500 years. Producing Pasta for us is an art, which we perform every day, following the same traditions as our ancestors. A unique mix of history, culture, traditions and of course ... secrets! Our Ancestors used to mix only 2 ingredients, High Quality Durum Semolina & Water from the Natural Spring in Gragnano's Mountains. The ingredients were then pressed through a Bronze Die and the pasta was dried in the town's streets, under the sun! Today, after all these generations, we follow exactly the same traditional methods!

Exhibits Federal Oats Mills Sdn Bhd (FOM) was incorporated in Malaysia under the Companies Act 1965 on 14th October 1965 with pioneer status granted from the Ministry of Trade and Industry. Today, we are Southeast Asia's largest oat milling plant. With over 50 years of experience, our main business lies in processing raw oats into edible oats for our own Captain Oats brand. Our Captain Oats products are popular within the domestic Malaysian market as well as in other parts of the world, particularly in the Middle East such as the United Arab Emirates, Oman, Saudi Arabia and Yemen, and Sri Lanka, Hong Kong and Singapore. Besides that, we are also involved in contract manufacturing services and supply of bulk oats for industrial usages. Captain Oats is sourced from natural premium Australian oats. Manufactured and processed in-house, we are able to maintain the freshness of our oats and preserve its natural optimal nutrient level via the Captain Oats' proprietary OatiFresh™ process. We are committed to invest in R&D and new technologies to consistently produce quality oats for consumers' healthy living lifestyles.

Exhibits Brazil Nuts. Brazil Nuts are the only commercial dried fruit found exclusively in the Amazon forests. Peruvian Brazil Nuts are a flagship product for White Lion Foods. These are sourced from various rainforest-concessions within the state of Madre de Dios, in the heart of the amazon rainforest, close to the borders of Brazil and Bolivia. Brazil nuts are renowned for their high selenium content, and are in fact the richest known food source of this important nutrient. Selenium is an essential mineral and antioxidant that is needed daily for a healthy immune system.

Tel / Fax	+48 512 457 163
Website	www.antoniuscaviar.com
E-mail	mkapanowski@antoniuscaviar.com
Exhibits	Antonius Caviar is a Polish caviar brand created by Goslawice fish farm, a company with 50 years of experience in the industry. Antonius Caviar offers the best quality caviar with remarkable taste, deriving from optimal breeding conditions, nonurbanized environment and crystal-clear waters as well as from using traditional methods and attention paid to the quality of the final product. We use only female sturgeons from our own breeding farms to produce our caviar. The ability to have control over each aspect of the fish life cycle, from reproduction through food quality to health monitoring, is considered the greatest factor contributing to the roe quality. Antonius Caviar is unpasteurised, sourced in a traditional way and prepared using the 'Malossol' method. Our offer includes two caviar varieties (from two sturgeon species): -Oscietra is sourced from Russian sturgeon (<i>Acipenser gueldenstaedtii</i>). Its large grains (diameter 2.7 to 3.5mm) have a rich, intriguing nutty taste. Its colours range from grey and brown to olive or even gold. -Siberian is sourced from Siberian sturgeon (<i>Acipenser baerii</i>). Its pearls are 2.4 to 3.2 in diameter, have an intense flavour and come in shades from black to light brown.

Exhibits	PEPEES S.A. is the biggest producer of potato starch in Poland. The main activity of PEPEES is production and sales of native potato starch which accounts for 75% of annual production volume. The products which supplement our trade offer are: maltodextrin, crystalline & anhydrous dextrose and potato feed protein. PEPEES S.A. is unquestionable leader in production of maltodextrin as well the only Polish producer of crystalline dextrose. Potato origin of our protein guarantees high quality material for animal feed. The offer of PEPEES S.A. is enriched by products of our subsidiaries – potato grits, potato flakes and potato glucose syrups. Starch is multifunctional raw material in the food, pharmaceutical and chemical industry. It gives the products proper texture, appearance, moisture, consistency and extends storage period. Also, due to its natural properties starch can be used as a thickener or gelling agent. Application of PEPEES potato starch in food industry include meat processing, baking, yeast production, instant products, snacks, noodles, sauces and seasonings. Our products are packed in multilayered bags of 25 kgs or big bags. For more informations contact PEPEES Export Department directly.

Exhibits The well acclaimed Ken Ken shredded cuttlefish with the tagline Chewing Gum of the Orientals is established by Ken Ken Food Manufacturing Pte Ltd and was awarded with the 50 years Commemorative Trade mark SG60 in 2015. It is one of the most well-known cuttlefish snacks from the olden times which are enjoyed by friends and families. To date, all people are still able to taste the high-quality and delicious squid produced by us. The name Ken Ken originated and is inspired by Kensaki Surume, which is the Japanese name for squid. Ken Ken Food Manufacturing specializes in making seafood snacks from real seafood. Apart from old time favourite, there is a new product which is emerging in the market currently and that is our latest creation, Salted Egg Fish Skin. The fish skin is generously coated with a creamy blend of sweet and salted egg mix which is seasoned to perfection and will make one crave for more. We have expanded our manufacturing operations from Singapore to Vietnam and are exporting to various countries.

Website	www.brendas.co.za
E-mail	info@brendas.co.za
Exhibits	Brenda's journey started in different corners of the world and culminated in South Africa's beautiful Western Cape. Our founder, Brenda de Jager, has taken on board the diversity of fresh food markets and seasonal produce. The quest for fresh produce spurred Brenda into making her first jars of fig and apricot jam in 2007. From jewel-toned jams and marmalade Brenda moved on to glazes, condiments, preserves and chutneys, inspired by spices, her first love, and places across the globe that she has visited. Guava and peach preserve hark back to her childhood; quince or fig preserve are great accompaniments to Moroccan tagines; apple breyani chutney as well as dhania chutney evoke the flavors of Malay cooking in the Bo-Kaap and Italian or Indian Salt Grinders bring international pizzazz to your dining table. At Brenda's we celebrate and respect all our ingredients by not adding any preservatives to our products. All our products are additive-free and made from fresh, natural ingredients, expertly sourced from local producers. Our products embody the flavors that inspire us and are best enjoyed in the company of loved ones. To date, Brenda's preserves are stocked at selected outlets nationwide and are also available on-line.

Exhibits De Ladegourdie wines was established by a young South African Wine Entrepreneur called Ryan Ladegourdie. His ancestors were from France which is where the French surname originated. The original surname of the family was De Ladegourdie. Ryan Ladegourdie a few Generations later always had a dream of being in the wine industry and owning his own wine brand thus how the name of the wine brand came to fruition. The meaning of Ladegourdie stands for dreams and this is how the wine brand originated through Dreams that became a reality. From within humble origins, De Ladegourdie Wines, based in the picturesque Boland Region, has grown to become an exquisite supplier of fine wine, competing on a global scale. The Boland (Afrikaans for top country or land above) is a region of the Western Cape province of South Africa. Our vineyards guarantee consistency in style and quality year after year. As each vine grows in harmony with the soil, the sun and the wind, it produces grapes of unique character and quality, ensuring only the best premium wines.

Tel / Fax
Website www.drifterbrewing.co.za
E-mail nick@drifterbrewing.co.za
Exhibits Started in early 2015, Drifter is a nautical-themed brewery based in Cape Town, South Africa. The name comes from a 43-foot sailing yacht that (owner) Nick's parents built in their garden during the late '70s. They then sailed around the world on Drifter for almost a decade before returning to Cape Town to settle down, have children and eventually sell the boat. Thirty-five years later, Drifter came into Nick's life in March 2017 and is once again owned by the family. Drifter symbolizes adventure, creativity and community, which is what the team strive for in the beers and at the brewery. Whether it is sinking a batch of Belgian tripel beer on the ocean floor or adding peanut butter to a winter brew, Drifter is always looking ahead and pushing the boundaries to keep the craft beer industry exciting in South Africa. Their 2018 limited edition Ocean Aged Tripel beer is the first of its kind in the world and is now available for export

Exhibits	Our unique fine wines are in a reductive style to preserve the aromatic fruit profile. Individual grape parcels were crushed and fermented in open-top stainless - steel tanks with regular punch-downs (4-5 times daily). Followed by extended skin maceration. The wines were then racked (transferred) to a combination of 1st, 2nd and 3rd fill French oak barrels, and left to mature for 20 months. Maturation 55%in New 1st - fill French barrels, 45%in 2nd- and 3rd-fill 225L French barrels, for 20 months. Our Red Blend 2015 is a wine with a layered fruit profile - Red fruit, especially Cranberry, comes through strong on the nose. Ageing Potential is more than 15 years from vintage. Our Shiraz 2015 Individual grape parcels were crushed and fermented in open-top stainless - steel tanks with regular punch - downs (4-5 times daily). Just like the Red Blend. Our White Blend 2017 is made in a reductive style to preserve the aromatic fruit profile. French 225L barrels for 6 months. For the descending enjoyment of wine, our company brings eloquence to the discerning enjoyment of wine lovers who identify with our brands. We take these seeds and sowed them to bring you these wines.

Exhibits	All the extra virgin olive oil obtained under the Oro Bailén brand comes from our olive groves, so traceability and food safety are guaranteed. The harvest is done very early, always depending on an optimum point of ripeness. It is transported to the mill with the greatest speed, achieving in less than two hours to complete the entire production process thanks to the location of the facilities. Thus maintaining the juices, properties and freshness of a freshly squeezed fruit. All this under integrated production systems, respect for the environment, food safety and quality management. Thanks to our geographical location, Oro Bailen oils get unique, peculiar fruity and aromatic notes, which give them a very marked personality. Nevertheless, without a doubt, the most remarkable thing is their harmony, a perfect combination between fruity, bitter and spicy. In the last 10 years, Oro Bailen has become a benchmark worldwide, being considered one of the best EVOOs by the most prestigious national and international competitions.

Contact Antonio Sorgato
Address AVDA ANTONIO SANCHEZ 1
Tel / Fax +34957660046
Website www.toroalbala.com
E-mail exportceo@toroalbala.com
Exhibits VINEGARS Bodegas Toro Albala has been creating quality vinegars in Moriles since the mid-twentieth century. The production and ageing of vinegar is an activity traditionally linked to the wineries of the Cordoban countryside. Vinegars are created by experts in fortified wines, using high quality wines from Bodegas Toro Albala as their base. A high acetic acid content and aromatic complexity in particular are the characteristics that these fortified wines bring to the vinegars. Vinegar ageing takes place in Spanish oak barrels over a long period of time, in the style of winemaker, Antonio Sánchez. The influence of the natural environment over time on the wine that forms the base for the vinegar results in vinegars with personality characteristic of their vintage. Vinagre Gran Reserva (Gran Reserva vinegar) and Vinagre Balsámico al Pedro Ximénez (Pedro Ximénez Balsamic Vinegar) both conform to current regulations for Montilla-Moriles PDO vinegar. Vinagre Gran Reserva is made using fortified wines and aged for more than 30 years. Vinagre Balsámico al Pedro Ximénez is made using fortified wines and must from Pedro Ximénez grapes.

TERRA NOSTRA de Vinos, S.L.

Contact Rocío Torrente
Address C/ SAN JUAN BOSCO, 32. ALCOY, ALICANTE

Tel / Fax +34 965 549 172
Website www.terranostravinos.com
E-mail josecanto@terranostravinos.com
Exhibits TERRA NOSTRA de vinos S.L. is a group of producers from different Spanish regions that joined and created this company in order to do the export together. Therefore TERRA NOSTRA is not a trading company or an agency, but simply a common export department working for all these cellars, who are the shareholders and owners of TERRA NOSTRA. All the cellars in the group are small to medium, family-owned and having their own vineyards, so all our wines are estate wines. The cellars in the group are: Bodegas ISMAEL ARROYO: D.O. RIBERA DEL DUERO, Bodegas LA VAL: D.O. RIAS BAIXAS (Albariño), Bodegas VALDELANA: D.O.C. RIOJA, Fermi BOHIGAS: D.O. CATALUÑA and CAVA, Bodegas SIERRA NORTE: D.O. UTIEL-REQUENA, D.O. VALENCIA, D.O. ALICANTE and VINO DE LA TIERRA DE CASTILLA (organic and conventional wines), NUEVOS VINOS: D.O. RUEDA and D.O. NAVARRA For customers interested in several wines from different cellars, we can consolidate them in one single collection address (minimum one pallet per cellar), at no extra cost, so that you can save on transport costs. Invoicing is made directly from the producers to the customer.

Exhibits	The Taiwan External Trade Development Council (TAITRA), including the Taiwan Trade Center, is the foremost non-profit trade and investment promotion organization in Taiwan. It was founded in 1970 to help promote foreign trade. Jointly sponsored by the government and various commercial and industrial associations, TAITRA offers comprehensive services to assist foreign businesses in establishing a wide presence in Taiwan. TAITRA has set up more than 60 Taiwan Trade Centers around the world. Together with the overseas offices of the MOEA, TAITRA has developed a comprehensive trade network serving as your first contact point of exploring abundant trade opportunities in Taiwan.

Exhibits We are Thailand based snacks manufacturer/distributor and NUTRIOZ is our product launched in late 2016 to Thai market with focused on healthy and premium quality snacks. We are pleased to present you NUTRIOZ, heart-made product from Thailand. After ages of crafting recipes, we have finally found the perfect profile of tasty and healthy vegetable chips. Through hand-sourced root vegetables from diverse farms in Thailand, and profound home-cooked crafting process, packs of delectable crisp chips are produced. In one pack you will find 3 types of sweet potato and taro, cooked with 100% natural rice bran oil, sprinkled with our three unique seasonings and spices. NUTRIOZ is a healthy choice of snacks for new generation consumers, we selected and embrace natural ingredients to make the best product. There is NO MSG, Non-GMO, Gluten Free, No Preservatives, and no artificial colors.

Exhibits FRUVE is a family-owned company, our roots firmly grounded in farming. Our most important stakeholders are our customers. Located in agricultural heartland in Bergama, Izmir, Turkey, less than one hour away from seaport. We process fresh fruits and vegetables in following formats: • Oven Semi Dried IQF Frozen (-18 C storage) • IQF Frozen (-18 C storage) • Oven Dried (room temperature storage). Product catalogue: <http://www.fruvenaturals.com/catalog/>. We are 100% natural, free-from, vegan, GMO-free, hormone-free. There are no pesticide residue or heavy metal residue in our products, due to our agronomists frequent visits, quality assurance controls at farms. There is no contamination risk by stones, insects, insect eggs or plant parts in products. From seed to final product, complete traceability from FARM to FORK and down to one box. All production is done in our plant, never out-sourced. Our products are dried using low heat in our custom designed ovens. We manufacture with High-Care Low-Care systems. With High-Care Low-Care oven drying, there is no risk of cross contamination during and after production. Very low microbiological levels and TVC counts in all products. Certifications: BRC, IFS, Kosher, Halal.

US Pecan Growers Council

Contact	Janice Dees
Address	PO Box 7606, Tifton, Georgia
Tel / Fax	1-229-392-8997
Website	www.uspecans.org
E-mail	info@uspecans.org
Exhibits	US Pecan Growers Council is to promote the pecan as a healthy and nutritious snack food and as a key ingredient in both consumer and industrial recipes. Pecans are the only tree nut that is native to the U.S. and the U.S. produces on average between 110,000 - 140,000 metric tons of pecans each year, which is about 80% of the world's pecan supply. Pecans are grown commercially in 15 states in the southern U.S. including Alabama, Arkansas, Arizona, California, Florida, Georgia, Kansas, Louisiana, Missouri, Mississippi, North Carolina, New Mexico, Oklahoma, South Carolina and Texas. Pecans have the highest antioxidant content of any tree nut, and are the only nut to rank in the top 20 antioxidant-rich foods. Versatile, rich-tasting pecans offer far more than just delicious flavor. Packed with vitamins, minerals, protein and fiber, pecans are high in antioxidants and are sodium-free, cholesterol-free and gluten-free.
